

## **Abstracts**

### **Comparison of definitions of biochemical recurrence following focal or total cryotherapy for organ-confined prostate cancer.**

Werneburg, GT, Gildersleeve, RT, Le Sueur, AL, Salcedo, JM, Katz, AE.

**36<sup>th</sup> World Congress of Endourology**, 2018, Paris, France.

### **Active surveillance prior to cryotherapy is associated with increased risk of post-treatment positive biopsy and progression to salvage treatment relative to cryotherapy without delay in organ-confined prostate cancer.**

Werneburg, GT, Gildersleeve, RT, Le Sueur, AL, Salcedo, JM, Katz, AE.

**36<sup>th</sup> World Congress of Endourology**, 2018, Paris, France.

### **Cryotherapy temperature effects on functional and oncological outcomes in prostate cancer.**

Werneburg, GT, Le Sueur, AL, Salcedo, JM, Gildersleeve, RT, Schiff, JT, Corcoran, AT, Katz, AE.

**Cryo2018**. Madrid, Spain. Oral Presentation

### **Combination of PSA density, prostate cancer antigen 3 and PI-RADS in the prediction of prostate cancer in initial biopsy.**

Gildersleeve, RT, Fazzari, MJ, Salcedo, JM, Werneburg, GT, Le Sueur, AL, Schiff, JT, Corcoran, AT, Katz, AE.

**American Urological Association 2018**. Moderated Poster Presentation

### **Initial screening using PCA3 with PSAD improved prostate cancer detection.**

Gildersleeve, RT, Fazzari, MJ, Salcedo, JM, Werneburg, GT, Le Sueur, AL, Schiff, JT, Corcoran, AT, Katz, AE.

**American Urological Association 2018**. Moderated Poster Presentation

### **Focal cryoablation is associated with superior quality of life and no difference in disease control relative to total cryoablation in prostate cancer patients.**

Werneburg, GT, Kongnyuy, M, Halpern, DM, Salcedo, JM, Chen, C, Le Sueur, AL, Kosinski, KE, Schiff, JT, Corcoran, AT, Katz, AE.

**American Urological Association 2018**. Moderated Poster Presentation

### **Moderate minimum tumor temperature in cryotherapy is associated with superior quality of life and no difference in disease control in prostate cancer patients.**

Werneburg, GT, Kongnyuy, M, Halpern, DM, Salcedo, JM, Chen, C, Le Sueur, AL, Kosinski, KE, Schiff, JT, Corcoran, AT, Katz, AE.

**American Urological Association 2018**. Moderated Poster Presentation

### **Primary treatment modality for prostate cancer is associated with risk of biochemical recurrence following salvage cryotherapy.**

Werneburg, GT, Salcedo, JM, Le Sueur, AL, Haas, JA, Schiff, JT, Corcoran, AT, Katz, AE.

**American Urological Association 2018**. Podium Presentation

**The 17-gene RT-PCR Prostate Assay: Clinical Experience in 29,000 Patients with Clinically Low-Risk Prostate Cancer.**

Katz, AE, Loman, C, Lu, R, Febbo, P, Denes, B.

**American Urological Association 2018.** Moderated Poster Presentation

**Perioperative and readmission rates in open and robotic assisted radical cystectomy: A National Cancer Database analysis.**

Kosinski, KE, Fazzari, M, Kongnyuy, M, Katz, AE, Corcoran, AT.

**Genitourinary Cancers Symposium 2017.** Poster presentation

**Active Holistic Surveillance Patient Characteristics Associated with Disease Progression in Prostate Cancer Patients.**

Kongnyuy, M, Berg, CJ, Islam, S, Kosinski, K, Halpern, D, Schiff, JT, Corcoran, AC, Katz, AE

**Genitourinary Cancers Symposium 2017.** Poster presentation

**Prostate Fiducial Marker Placement in Patients While on Anticoagulation: Feasibility Prior to Prostate SBRT.**

Haas, J, Katz, AE, Harris, J, Carpenter, T, Carbone, S, Kole, T, Pristupa S, Witten, S, Blacksborg, S.

**American Urological Association 2017.** Moderated Poster Presentation

**Predictors of Biochemical Recurrence after Primary Focal Cryotherapy for Localized Prostate Cancer: A Multi-Institutional Analytic Comparison of the Phoenix and Stuttgart Criteria.**

Kongnyuy, M, Lipsky, M, Islam, S, Robins, D, Kosinski, K, Halpern, D, Hager, S, Schiff, JT, Corcoran, AC, Wenske, S, Katz, AE.

**American Urological Association 2017.** Moderated Poster Presentation

**3-T Multiparametric MRI Characteristics of Prostate Cancer Patients Suspicious for Biochemical Recurrence after Primary Focal Cryosurgery.**

Halpern, D, Kongnyuy, M, Kosinski, K, Schiff, JT, Corcoran, AC, Katz, AE.

**American Urological Association 2017.** Moderated Poster Presentation

**PSA Trends following Primary Focal Cryosurgery for early stage prostate cancer.**

Kongnyuy, M, Islam, S, Halpern, D, Kosinski, K, Salcedo, J, Schiff, JT, Corcoran, AC, Katz, AE.

**American Urological Association 2017.** Podium Presentation

**Pathologic Metrics of Surgical Quality in Open and Robotic Radical Cystectomy Improved at Higher Volume and Academic Centers.**

Kosinski, K, Fazzari, M, Kongnyuy, M, Halpern, D, Smaldone, M, Schiff, JT, Katz, AE, Corcoran, AT.

**American Urological Association 2017.** Podium Presentation

**Institutional Volume is Associated with Reduced 90 Day Mortality Rates for both Open and Robotic Radical Cystectomy.**

Kosinski, K, Fazzari, M, Kongnyuy, M, Halpern, D, Smaldone, M, Schiff, JT, Katz, AE, Corcoran, AT.

**American Urological Association 2017.** Podium Presentation

**Facility Volume and Type is Associated with Receipt of Continent Diversion for both Open and Robotic Radical Cystectomy.**

Kosinski, K, Fazzari, M, Kongnyuy, M, Halpern, D, Smaldone, M, Schiff, JT, Katz, AE, Corcoran, AT.  
**American Urological Association 2017.** Podium Presentation

**Cryotherapy and Cyberknife Exhibit Comparable Patient-Reported Quality of Life to Active Surveillance in Organ Confined Prostate Cancer.**

Werneburg, G, Kongnyuy, M, Halpern, D, Salcedo, J, Kosinski, K, Haas, J, Schiff, JT, Corcoran, AT, Katz, AE.  
**Society of Urologic Oncology 2017.** Poster presentation

**Utilization of MRI and PCA3 reduces Unnecessary Prostate Biopsies.**

Berg, C, Halpern, D, Fazzari, M, Salcedo, J, Le Sueur, A, Schiff, JT, Corcoran, AC., Katz, AE.  
**Society of Urologic Oncology 2017.** Poster presentation

**Do African American Men have a Higher Rate of Discontinuation on Active Surveillance?**

Berg, C, Le Sueur, A, Schiff, JT, Corcoran, AC, Katz, AE.  
**Society of Urologic Oncology 2017.** Poster presentation

**Is Salvage Focal Cryotherapy Curative Treatment for Patients with Localized Recurrent Prostate Cancer?**

Berg, C, Kosinski, KE, Katz, AE.  
**Genitourinary Cancers Symposium 2016, American Urological Association 2016.** Poster presentation

***Histopathologic correlation of PIRADS version 2 lesions on 3T Multiparametric Prostate MRI.***

Liu, CC, Kosinski, KE, Katz, AE.  
**Genitourinary Cancers Symposium 2016, American Urological Association 2016.** Poster presentation

**Imaging Characteristics of prostate cancer patients with favorable 17-Gene Genomic Prostate Score on 3T Multiparametric prostate MRI.**

Liu, CC, Kosinski, KE, Katz, AE.  
**Genitourinary Cancers Symposium 2016.** Poster presentation

**Imaging characteristics of prostate cancer patients who discontinued Active Holistic Surveillance on 3T Multiparametric prostate MRI.**

Liu, CC, Kosinski, KE, Fontes, A, Katz, AE.  
**Genitourinary Cancers Symposium 2016.** Poster presentation

**Initial Results of Early Stage Prostate Cancer Patients on Active Holistic Surveillance.**

Katz, AE, Fontes, A, Kosinski, KE.  
**Genitourinary Cancers Symposium 2016.** Poster presentation

**Utilization of 17-gene biopsy-based genomics scores in treatment decisions for low-to intermediate-risk patients with prostate cancer.**

Katz, AE, Mulcahy, M, Rice, J, Kosinski, KE  
**ASCO 2016.** Poster presentation. Journal of Clinical Oncology. Vol. 34, No. 2\_suppl, p. e627.

**Young Age Predicts For Transient Elevation In Psa After Definitive Stereotactic Body Radiation Therapy For Prostate Cancer.**

Blacksburg, S, Witten, M, Katz, AE, Haas, J.

**American Urological Association 2015.** Poster presentation. The Journal of Urology, 193(4), e786.

**A Randomized, Double-blind, Placebo-controlled Study Of The Effects Of Pomegranate Extract On Rising Prostate Specific Antigen (PSA) Levels In Men Following Primary Therapy For Prostate Cancer.**

Pantuck, A, Pettaway, C, Dreicer, R, Corman, J, Ho, A, Katz, AE, ...Heber, D.

**American Urological Association 2015.** Poster presentation. The Journal of Urology, 193(4), e57.
