

# FREE PROSTATE CANCER SCREENING

Sponsored by Senator Kevin Thomas and NYU Winthrop Hospital

## EARLY DETECTION CAN SAVE YOUR LIFE!

Prostate cancer is the most common non-skin cancer among American men. When caught early, the relative 5 years survival rate of prostate cancer is nearly 100%.

This FREE screening is open to men who:

- **Are 50 years old or older** and have not been previously diagnosed with Prostate Cancer.
- **Are 50 years old or older** and have not had a PSA test within the past year.
- **Are under the age of 50 with any of the following risk factors:** Family history of prostate cancer, African-American descent, history of smoking, sedentary lifestyle, exposure to Agent Orange, or exposure to World Trade Center Ground Zero.

**Screenings will involve** a PSA Blood Test. Results will be mailed to participant's home within 3 weeks.
